

i3ALLSYNC HDMI Touch Transmitter 4.0

Instant wireless presenting

Share your screen instantly without installing any software. You only need the i3ALLSYNC app or i3ALLSYNC receiver on your display. Connect the i3ALLSYNC HDMI Touch Transmitter to your device and press the button to start sharing. Take control of the presented content on the display.

Plug & play

Connect the i3ALLSYNC HDMI Touch Transmitter to your laptop (or other compatible device) and press the button to share your screen.

No software needed

No need to install any software on your device.

OS independent

Compatible with Windows, Mac, Android and Linux devices.

Touchback

Use the touch display in the room to control the device you're sharing from.

Works with:

i3ALLSYNC HDMI Touch Receiver
Any HID-compliant touch screen

i3ALLSYNC Receiver App
Pre-installed on i3TOUCH P11, P12, E10R, i3HUDDLE 3.0 and i3SIXTY

**i3ALLSYNC
HDMI Touch
Receiver 4.0**

Wireless presenting for everyone

Upgrade your touch screen with the i3ALLSYNC HDMI Touch Receiver. Share your screen onto the touch display, take quick notes on the whiteboard or make annotations on top of any shared content.

Whiteboarding

The i3ALLSYNC HDMI TOUCH Receiver comes with a whiteboard application for quick notetaking and sharing.

Annotations

Make annotations on top of any shared content

Touchback

Control any application on your laptop wirelessly via the touch display.

Hotspot mode

No more security issues. Create your own WiFi hotspot.

Standalone

Can be used on any HID-compliant touch screen.

Works with:

i3ALLSYNC HDMI Touch Transmitter
Any HID-compatible device

i3ALLSYNC App Transmitter
